Automation Studio - Standard Proposal Template

Scope: Describe the automation being built, the platforms involved (n8n, WhatsApp Business API, etc.), and the specific problem it solves for the client.

Timeline: State a realistic delivery window, usually 7-21 days depending on complexity.

Pricing: Break down into setup cost and optional monthly maintenance, in PKR or USD depending on the client.

Payment terms: Typically 50% upfront, 50% on delivery.
